

## Len Hill (1947 - 2016)

Len Hill, the husband of our founder and director, Dr. Patricia Gordon, has passed away. He was the air beneath her wings, and supported the establishment of CureCervicalCancer.

Len was one of CCC's most generous donors and cheerleaders. We owe much of our success to his unwavering support. We have screened over 55,000 women all across globe and this astonishing accomplishment in a little over 3 years was made possible with the help and kindness of donors like Len Hill.

CCC would like to recognize the significant impact of his contributions and offer our condolences to our director, Dr. Patricia Gordon, and his family and friends. He surely left this world a better place than he found it and his work will be forever remembered.
