OB/GYN
Member of the Board

Judy Laner
Member of the Board

Dear Friend and Supporter of **CureCervicalCancer**

9/4/14

I had a dream...a dream to end the epidemic of cervical cancer, a cancer that causes nearly 500,000 deaths per year – **and yet is nearly 100% preventable**. Two years ago, I went to Senegal to see what I could do for women in resource-poor countries who have no access to healthcare and who are dying a painful, horrible death due to cervical cancer.

CureCervicalCancer (EIN# 46-3942138) has grown from an experiment into an internationally recognized and highly effective team in a remarkably short time. As my dream has become a reality, I was confronted with a choice – and the rewards of guiding CureCervicalCancer have made that choice evident. **I have RETIRED from my clinical practice so that I can completely devote myself to the responsibility of guiding CureCervicalCancer into the future, and our NEW LOCATION is 468 N. Camden Dr., Second Floor, Beverly Hills, CA 90210.**

Your early support helped to launch CureCervicalCancer. As we commit to making CCC the pre-eminent organization devoted to ending the epidemic of cervical cancer in the third world, I ask you to renew and expand your support.

Consider what we have already accomplished:

- ❖ **CureCervicalCancer has established 16 PERMANENT AND SUSTAINABLE programs providing life-sustaining healthcare to over 10,000 women in 5 developing countries on 4 continents.**
- ❖ **CureCervicalCancer, with your help, will establish 11 MORE programs by the end of 2014 as we launch Phase Two in Haiti, Western Kenya/Kisii, and Vietnam this Fall!**

Your donation will enable CCC to establish new, permanent programs and train local healthcare providers. CCC clinics stand as a beacon of hope for thousands of women, granting them access to life-saving healthcare on an ongoing basis.

- ❖ **\$25,000 establishes a large clinic at a major hospital in YOUR CHOSEN NAME.**
- ❖ **\$10,000 establishes a clinic at a community hospital in YOUR CHOSEN NAME.**
- ❖ **\$5,000 buys 6 CO₂ tanks, which can save the lives of 240 women.**
- ❖ **\$2,500 buys a complete cryotherapy set for freezing off precancerous lesions.**
- ❖ **\$1,000 buys vaginal specula, light sources, teaching sets, and other supplies for 1 CCC clinic.**

Please, send your tax-deductible (EIN# 46-3942138) check using the enclosed return envelope. If you prefer to donate using a credit card, you can log onto <http://curecervicalcancer.org/donate> to make a gift.

With much gratitude,

Patricia Gordon MD
Founding Director – **CureCervicalCancer**
