## Cervical Cancer: Fatal. Pervasive. Preventable.

Recent "See and Treat" graduates. (Addis Ababa, Ethiopia April 2015.)

*Dear friends and supporters of CureCervicalCancer,*

**Now more than ever, we need your continued support.**

The CureCervicalCancer Team is back from Ethiopia and has successfully established 4 new "See and Treat" clinics. We left behind 26 fully trained healthcare professionals who are highly proficient in the procedure. In just one week, CCC screened 618 women and 115 were treated with cryotherapy.

**We now have 32 sustainable clinics worldwide and have screened nearly 23,000 women. We are looking to almost double this number by the end of 2015.**

### UPCOMING PROGRAMS

- May 2015: China & Guatemala
- August 2015: Haiti
- October 2015: Kenya
- December 2015: Vietnam

### COMPLETED PROGRAMS

- Ethiopia (7)
- Guatemala (2)
- Kenya (15)
- Haiti (3)
- Vietnam (5)

Next week, the team is leaving for **China** on a trip supported by the Chinese Ministry of Health to teach 90 local doctors the cryotherapy procedure. We will even introduce new clinics in the rural area of Taizhou. A few days after we arrive back from China, CCC will head to **Guatemala** to establish 3 additional See and Treat programs. For the second half of 2015, CCC has been enlisted by International Medical Corps to set up 11 additional clinics in **Haiti** and 8 in **Kenya**. We are also seeking to establish more clinics in **Nigeria**, Kenya, and **Vietnam**.

With so much in store for CCC this year, the need for your support is immense, especially for the children who have lost their mothers to this 100% preventable disease.

Please make your tax-deductible donation at
